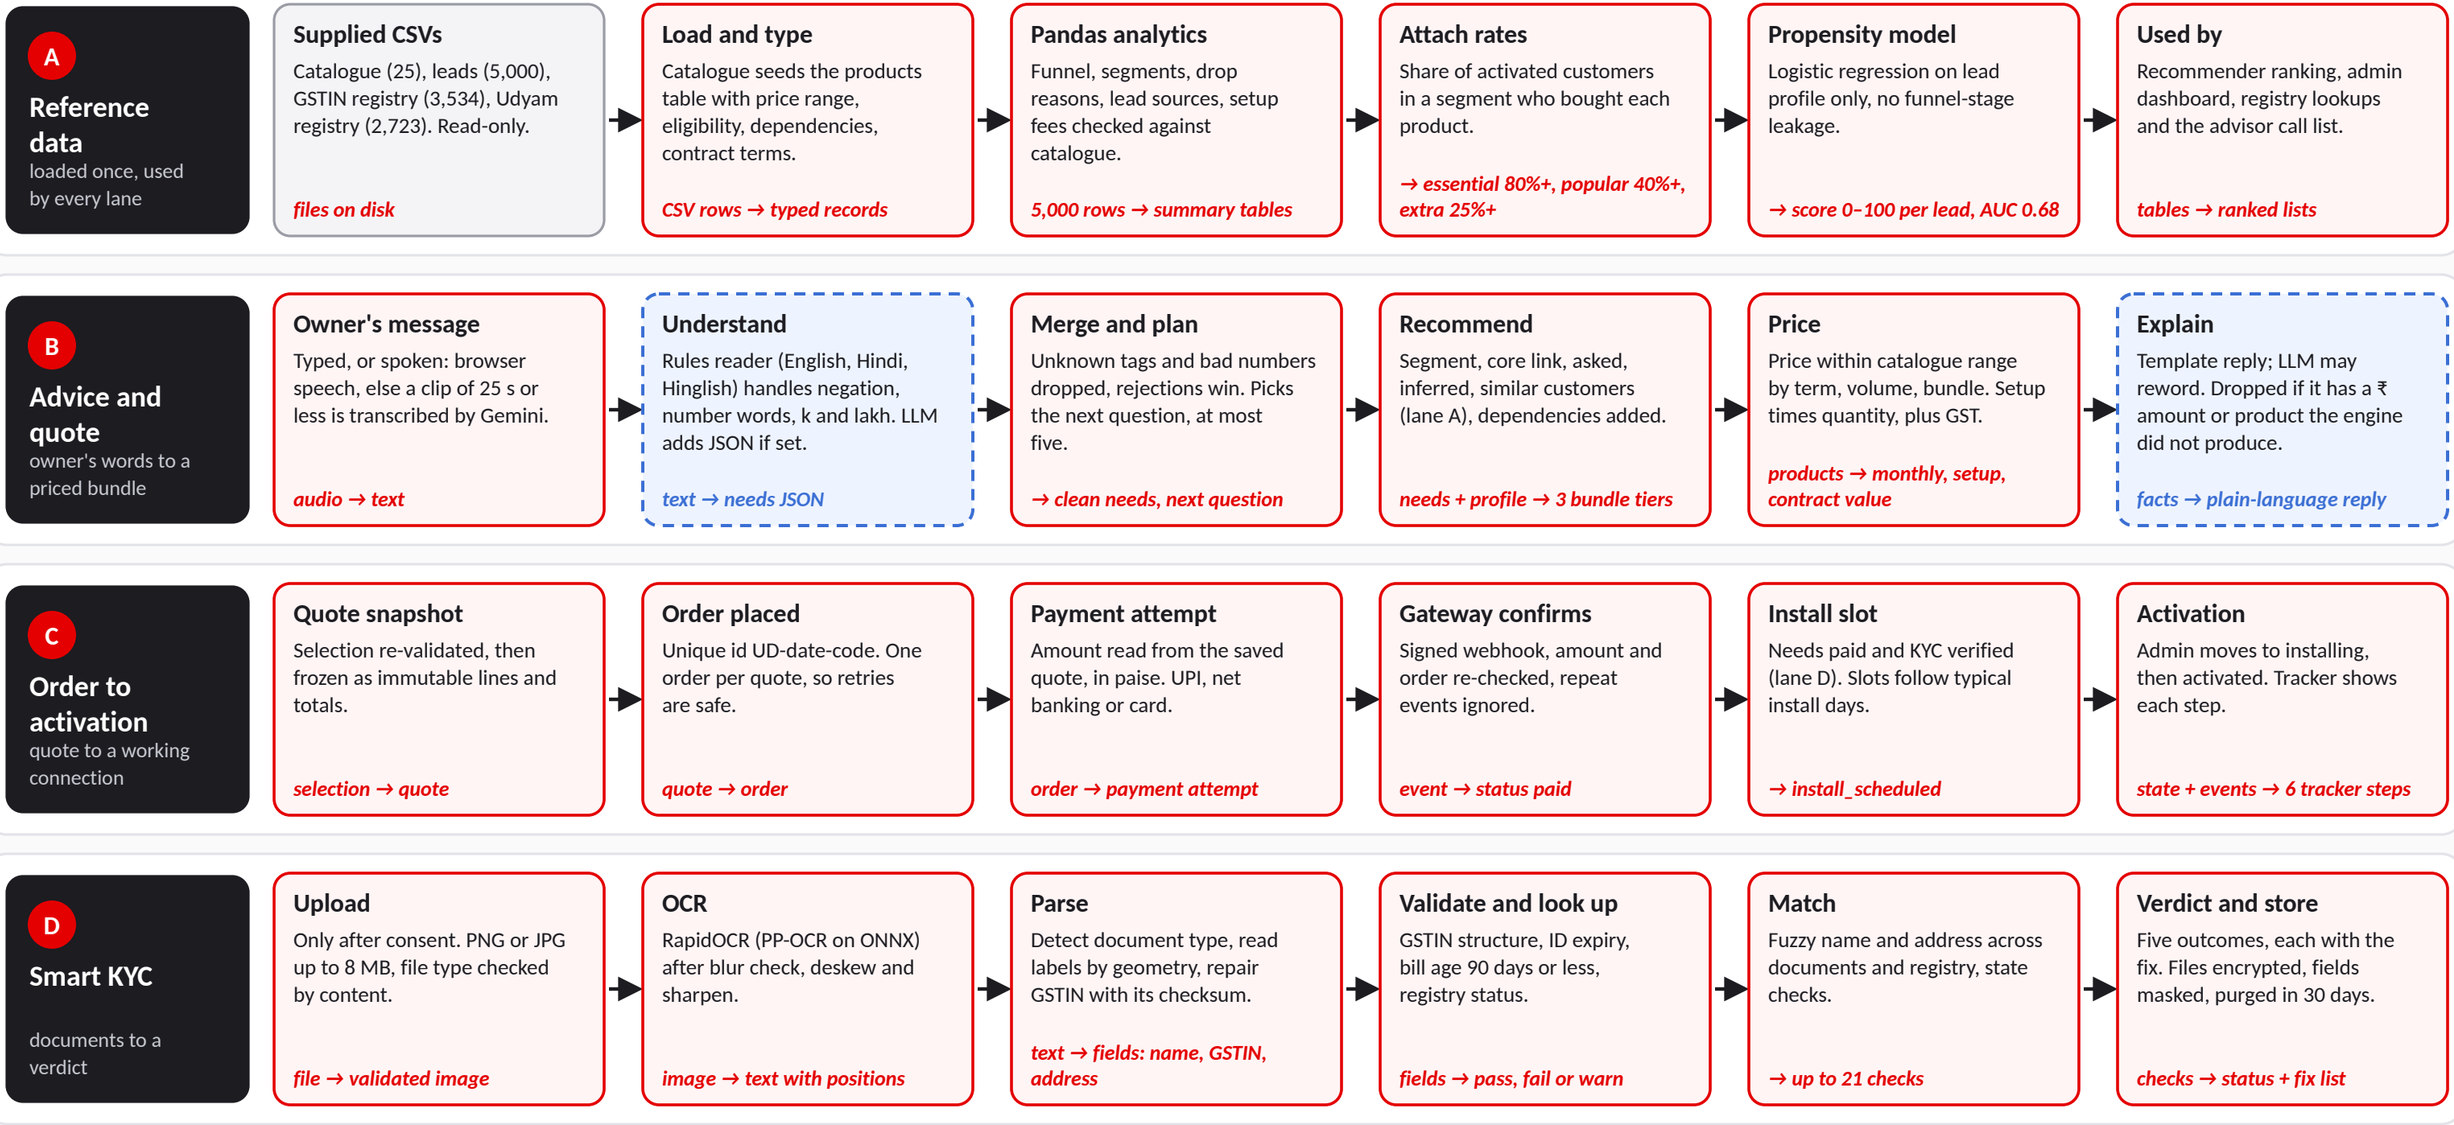
Udyam Digital - data workflow: how data is converted and processed

Each box shows what happens, then in italics how the data changes shape. Red outline = deterministic code · Blue dashed = may use an LLM (optional, guarded) · Grey = supplied data



Links between lanes: attach rates and propensity (A) rank products in Recommend (B) and fill the admin call list. The KYC verdict (D) gates the install slot (C). Quotes (B) become orders (C).
